CURRENT ENGINEERING LETTERS AND REVIEWS

Aims & Scope

Current Engineering Letters publishes original letters (short articles), research articles, full-length/ mini-reviews and thematic issues based on mini-reviews and short articles dealing with various topics related to engineering sciences.

Original research letters, articles and reviews in the following areas of engineering sciences are of special interest to the readers of this journal:

- Aerospace engineering and technologies
- Agriculture and food engineering and technologies
- Artificial intelligence technologies
- Bioengineering and biotechnologies, and bionic engineering and technologies
- Biomedical engineering and pharmaceutical engineering
- Chemistry and molecular engineering, and chemical engineering and technologies
- Civil engineering
- Energetic materials, and explosion and propulsion technologies
- Energy sciences and technologies
- Environmental sciences and engineering
- Materials sciences and engineering
- Mechanical engineering and automation technologies
- Powder and electrical engineering
- Sustainable and green engineering technologies
