Aims & Scope

Anti-Cancer Agents in Medicinal Chemistry aims to cover all the latest and outstanding developments in medicinal chemistry and rational drug design for the discovery of anti-cancer agents. Each issue contains a series of timely in-depth/mini-reviews and guest-edited issues written by leaders in the field covering a range of current topics in oncology and medicinal chemistry. The journal considers high-quality reviews and research papers for publication. Scientific areas within the scope of the journal include:Read more
