## Aims & Scope

**Current Catalysis** is an international peer-reviewed journal that publishes original research, full-length reviews/mini-reviews, and thematic issues in all core areas of catalysis, including theoretical, experimental, and applied research. The scope includes heterogeneous catalysis, homogeneous catalysis, bio-catalysis, synthesis and properties of new catalysts, including synthesis and catalytic function of novel inorganic solids and complexes, studies that relate catalytic function to fundamental chemical processes in metal complexes and at surfaces, novel concepts in surface chemistry, preparation, activation, aging, deactivation, rejuvenation, regeneration of commercially interesting model catalysts, techniques and adsorption.
