Aims & Scope

Current Drug Metabolism aims to cover all the latest and outstanding developments in drug metabolism, pharmacokinetics, and drug disposition. The journal serves as an international forum for the publication of full-length/mini-review articles and guest-edited issues on drug metabolism. Current Drug Metabolism is an essential journal for academic, clinical, government, and pharmaceutical scientists who wish to be kept informed and up-to-date with the most important developments. The journal covers the following general topic areas: pharmaceuticals, pharmacokinetics, toxicology, and, most importantly, drug metabolism.
