Aims & Scope

Current Alternative Energy, a peer-reviewed journal, publishes full-length/mini-reviews, original research articles, and thematic issues on experimental and applied research on alternative energy sources. The scope covers sustainable and alternative energy sources, e.g., solar, wind and wave energy, geothermal, photovoltaics, and biofuels. Coverage also includes enabling technologies for renewable energy and energy efficiency studies, including energy engineering, new developments in energy devices, energy policy, and investment. Digital transformation applications in energy systems, energy production technologies, and hybrid systems within the scope of Green transformation are also within the scope of the journal.
