Editor-in-Chief
Francesco Benedetto, Italy

ISSN: 2666-2558 (Print)
ISSN: 2666-2566 (Online)

Aims & Scope

Recent Advances in Computer Science and Communications publishes full-length/mini-reviews, research articles, and guest-edited thematic issues reporting theoretical and experimental advances, as well as recent patents in all areas of computer science and communications. A selection of important and recent patents on computer science is also included in the journal. The journal is essential reading for all researchers involved in computer science and in the general areas of communications. Topics of interest include, but are not limited to, computer graphics, artificial intelligence, cybernetics, hardware architectures, software, modulation, signal design and detection,
