## BIOSPHERE: A SCIENTIFIC JOURNAL

### Aims & Scope

**Biosphere: A Scientific Journal** is an interdisciplinary peer-reviewed journal that publishes original research, reviews/mini-reviews, letters, and guest-edited thematic issues on all areas of the natural environment, the interactions among living organisms, and their relationship with the non-living components. The journal is essential reading for researchers, ecologists, environmental scientists, conservationists, policymakers, and educators with emphasis on the fundamental and applied aspects of ecological and environmental sciences. Areas of interest cover, but are not limited to:

- Climate Change and Global Processes, • Ecology and Biodiversity, • Environmental Science and Management, • Human Ecology and Environmental Sociology, • Marine and Freshwater Biology, • Methodological Advances, • Terrestrial Ecosystems....[Read more](#)
