## Aims & Scope

**Letters in Organic Chemistry** publishes original letters (short articles), research articles, and full-length/mini-reviews in all areas of organic chemistry, including synthesis, bioorganic, medicinal, natural products, organometallic, supramolecular, molecular recognition, and physical organic chemistry. The journal emphasizes publishing quality papers rapidly by taking full advantage of the latest technology for both submission and review of manuscripts.

The journal is an essential reading for all organic chemists belonging to both academia and industry.
